

The background of the entire image is a photograph of an industrial facility, likely a refinery or chemical plant, during sunset. The sky is a warm orange-yellow, and the sun is a bright, glowing orb in the center. Silhouetted against the sky are several tall, vertical distillation columns with ladders and platforms. In the foreground, there are various pipes, valves, and storage tanks. The overall mood is industrial and serene.

CONTRACTING LLC

Chairman's Message

It gives me great pleasure to welcome you to TIBER Contracting L.L.C. and to share with you an overview of our vision, aspirations, and journey toward building a company capable of delivering real value across the contracting, energy, oil, and gas sectors within the United Arab Emirates and the GCC region.

At TIBER Contracting, we believe that success is not measured solely by the volume of completed projects, but by our ability to build trust, achieve excellence, and deliver integrated solutions that meet our clients' needs while keeping pace with the rapidly evolving dynamics of regional and global markets. Today, the oil & gas, energy, and infrastructure sectors have become fundamental pillars of economic development, requiring companies with a clear vision, specialized expertise, and the ability to execute projects with efficiency and the highest level of professionalism.

With this perspective, TIBER Contracting was established to serve as a trusted partner in the execution of engineering, construction, and industrial projects, with a strong focus on delivering comprehensive services in accordance with the highest professional and technical standards. We continuously work to strengthen our capabilities, enhance our operational performance, and invest in human resources and modern technologies, enabling us to adapt to ongoing industry developments and achieve exceptional performance standards.

We recognize that today's business environment demands flexibility, efficiency, and rapid execution while maintaining full commitment to quality, health and safety, and sustainability standards. For this reason, these principles form an integral part of our corporate culture and daily operational approach. For us, quality is not a destination to be reached, but an ongoing process through which we continuously improve performance, enhance services, and increase operational efficiency across all our activities.

Khalid Naser Mohamed Yousef

We also firmly believe that people are the foundation of every successful organization. Therefore, we are committed to building a team that possesses experience, competence, and dedication, while sharing the same vision and ambition toward achieving excellence and leadership. We consider investment in talent, continuous training, and professional development to be among the most important drivers of the company's sustainable growth.

Finally, I would like to extend my sincere appreciation and gratitude to our clients, partners, and dedicated team for their trust and continued support. We look forward to a future filled with opportunities and achievements, where we will continue to work with commitment and determination to realize our vision and strengthen TIBER Contracting L.L.C.'s position as a leading company in the contracting, oil & gas, and energy sectors across the UAE and the GCC region.

Chief Executive Officer's **Message**

It gives me great pleasure to welcome you to TIBER Contracting LLC. and to share our vision for building a company founded on efficiency, professionalism, and commitment in delivering integrated solutions across the oil & gas, energy, construction, and infrastructure sectors within the United Arab Emirates and the GCC region.

The oil, gas, and energy sectors continue to experience rapid development and increasing challenges that require speed in execution, precision in performance, flexibility in project management, and a commitment to the highest technical and operational standards. In light of this, TIBER Contracting adopts a work methodology centered around quality, innovation, and continuous improvement, with the goal of delivering services that meet our clients' needs and exceed their expectations.

We firmly believe that the success of projects is not solely dependent on technical capabilities, equipment, or advanced technologies, but is fundamentally driven by a qualified team possessing the expertise, knowledge, and ability to manage and execute projects efficiently and effectively. Therefore, we continuously invest in human capital, enhance the capabilities of our workforce, and foster a work environment built upon collaboration, responsibility, and excellence.

We are also committed to implementing international best practices in project management, quality assurance, health, safety, and environmental standards. Our focus remains on ensuring that all projects are executed in accordance with the highest professional standards while emphasizing operational efficiency and delivering optimal results for our clients and partners.

At TIBER Contracting LLC., we do not view projects merely as tasks to be completed; rather, we see them as responsibilities and opportunities to build long-term strategic partnerships based on trust, transparency, and shared success. Our objective is to become a trusted partner that supports strategic and developmental projects through the delivery of value-added engineering and construction solutions.

Alexander Hayes

As the United Arab Emirates and the GCC region continue to witness significant growth and expansion across energy, infrastructure, and industrial sectors, we look forward to a future filled with opportunities and achievements. We aspire for TIBER Contracting LLC. to be among the leading companies contributing effectively to sustainable development and long-term excellence.

Finally, I would like to extend my sincere gratitude and appreciation to our clients, partners, and team members for their trust and continued support. We look forward to continuing our journey of success and achieving even greater milestones in the years ahead.

ABOUT TIBER

Organizational Structure

About **T I B E R**

In a world witnessing rapid advancements across the energy, infrastructure, and industrial construction sectors, the need for partners with expertise, competence, and the ability to execute large-scale projects in accordance with the highest standards of quality and safety has become essential for achieving success and sustainability.

TIBER Contracting L.L.C. was established to serve as a trusted partner in the contracting and specialized engineering services sector, with a strategic focus on oil & gas, energy, industrial projects, and infrastructure within the United Arab Emirates and the GCC region.

We are committed to delivering integrated engineering and construction solutions that combine innovation, operational expertise, and technical excellence, ensuring projects are executed according to the highest international standards while creating real value for our clients.

TIBER Contracting L.L.C. is a specialized company in the execution of construction works, engineering services, and industrial solutions, with comprehensive expertise across the oil & gas, energy, and infrastructure sectors.

We provide complete solutions covering every stage of the project lifecycle, starting from planning and engineering studies through execution, operation, and maintenance, while maintaining a strong focus on delivering high-quality services that meet the diverse requirements of projects across the UAE and GCC markets.

The company is built upon qualified technical and administrative professionals and follows a work methodology driven by commitment, professionalism, and continuous improvement to ensure the highest levels of performance and operational efficiency.

We Believe in **Quality** and **Durability**

Our mission is to deliver integrated and innovative engineering and construction solutions that meet our clients' expectations through a commitment to the highest standards of quality, safety, and operational excellence, while building long-term relationships founded on trust and professionalism.

Why choose us?

The company is distinguished by several key factors that make it a trusted partner for various projects:

- Specialized expertise in oil, gas, and energy projects
- Integrated engineering and construction solutions
- Qualified technical and administrative professionals
- Commitment to timelines and quality standards
- Implementation of the highest health and occupational safety standards
- Capability to manage and execute projects of various scales
- Utilization of the latest technologies and engineering systems
- Business network focused on the UAE and GCC markets
- An operational approach centered on efficiency and sustainability

Our Vision

To become one of the leading companies in contracting and specialized engineering services within the oil & gas, energy, and infrastructure sectors across the United Arab Emirates and the GCC region.

Strategic Objectives

The company operates in accordance with clear strategic objectives that include:

■ ■ Strengthening Regional Presence

Expanding the company's operations across the UAE and GCC countries while increasing the scale of strategic projects.

■ ■ Excellence in the Oil & Gas Sector

Establishing a strong position in oil, gas, and energy projects through the delivery of highly efficient and specialized services.

■ ■ Achieving the Highest Quality Standards

Implementing international best practices and quality management systems across all stages of operations.

■ ■ Promoting Sustainability

Contributing to projects that support sustainable development and preserve valuable resources.

■ ■ Building Long-Term Partnerships

Developing strategic relationships with clients, suppliers, and business partners.

■ ■ Enhancing Human Capabilities

Creating a motivating work environment and investing in continuous training and professional development.

Our Mission

The company is built upon a set of core values that represent the foundation of our business:

■ Professionalism

We believe in the importance of delivering the highest standards of professional performance.

■ Quality

We strive to provide the highest levels of quality across all our operations.

■ Safety

Safety is a shared responsibility and a fundamental priority in all our projects.

■ Transparency

We conduct our business with integrity, honesty, and clarity in all our dealings.

■ Innovation

We continuously seek to develop effective and advanced solutions.

■ Sustainability

We support practices that contribute to long-term growth and sustainable development.

Health, Safety & Environment (HSE)

At **TIBER Contracting L.L.C.**, we consider Health, Safety, and Environment (HSE) an essential part of our daily work culture.

- Implementing occupational health and safety systems in accordance with international standards.
- Assessing and managing risks across work sites.
- Providing continuous training and development for employees.
- Ensuring safe and secure working environments.
- Committing to environmental protection and minimizing operational impacts.

Management Team

The foundation of success lies in placing the right person in the right position. Therefore, we are committed to attracting individuals with strong leadership qualities and a collaborative spirit. We continuously strive to communicate our vision, values, and mission clearly while fostering an environment that supports continuous growth and long-term success.

List of Company Equipment, Machinery, Instruments & Software

S.N.	Equipment & Machinery	Quantity
1	Asphalt factory 350 Ton/h.	2
2	Concrete factory 150 m ³ /hr.	2
3	Paving Machines	8
4	Gravel factory	2
5	Graders	6
6	Front end Loader	8
7	Excavator	11
8	Power Shovel	6
9	Tanker truck (Water & oil)	6
10	Concrete mixer (Truck) 9 M3	9
11	Concrete pump	2
12	Pickup & Light Truck	14
13	Compactors of all types	21
14	Cranes all types	18
15	Lorry trucks	43
16	Asphalt cutter machine	4
17	Generator (50-150 kv)	13
18	Side booms all kinds	12
19	Air compressor	23
20	Fork lift	16
21	Service Cars	19
22	Welding machine	64
23	Bulldozers	9
24	Mobile Crushing Plants	4
25	Mobile Screening Plants	2
26	De-water pumps	9
27	Pipe Bending Machines (All Kinds)	6

28	Crawler pipe carriers	6
29	Crawler and wheeled pay-welders for manual welding	14
30	Coat mobile units	2
31	Winches up to 70 tons	3
32	Compressors up to 30.000 / min	5
33	Lifting plants	9
34	Hydrotest Containers completed with instrumentation	3 Sets
35	Trailers, semi-trailers, and pipe-dollies	12
S.N.	Electrical Instruments	Quantity
1	Survey Equipment	6
2	High Voltage Test Equipment	3
3	Digital Low Resistance Ohmmeter 10A	4
4	Transformer Ohmmeter	7
5	Oil Test Set	2
6	Digital Low Resistance Ohmmeter	5
7	3-in-1 test system for medium- and high-voltage circuit breakers	3
8	The High Precision Relay Test Set and Universal Calibrator	4
9	Multi-functional primary test system for substation commissioning and maintenance	5
10	CT Analyzer	1
11	SF6 Multi-Analyzer	1
12	SF6 Gas Handling Equipment	1
13	SF6 Gas Measuring Equipment	1
S.N.	Software's	Quantity
1	Auto CAD	2
2	MS Office	10+
3	Primavera P6 ver. 8.4	2
4	Adobe Acrobat pdf	10+
5	MATLAB	2
6	Pro E	2
7	ANSYS	2

**OUR
SERVICES**

Oil & Gas Services

■ Civil Works for Oil & Gas Sector

- Construction and development of oil & gas civil facilities
- Foundation and concrete works
- Construction of buildings and industrial facilities

■ Mechanical Works for Oil & Gas Sector

- Installation of industrial systems and equipment
- Pipeline works
- Mechanical maintenance services

■ Instrumentation & Systems Works for Oil & Gas Sector

- Installation of industrial systems and instrumentation
- Control and monitoring systems
- Operation and maintenance services

■ Power Stations

- Construction of power plants
- Maintenance and upgrade works
- Installation of energy-related systems

Construction & Infrastructure Services

■ General Contracting Works

- Building construction services
- Building maintenance
- Civil construction works

■ Water & Wastewater Networks

- Construction of water networks
- Construction of water treatment facilities
- Construction of wastewater networks and treatment plants
- Maintenance and repair works

■ Marine Works & Ports

- Execution of marine projects
- Development of port infrastructure

■ Roads, Bridges & Tunnels

- Road construction
- Bridge construction
- Tunnel construction
- Development and maintenance works

■ Electromechanical Works

- Installation of electromechanical equipment
- Operation and maintenance services

■ HVAC Systems

- Installation of HVAC systems
- Air purification systems
- Preventive and routine maintenance services

A photograph of three men shaking hands in front of a city skyline. Two men are wearing white traditional Arab clothing (thobe and ghutra), and one man is wearing a dark suit. They are all smiling and appear to be in a celebratory mood. The background shows tall buildings and a clear sky.

OUR PROJECTS

■ Full Field Development & Early Production Facility (EPF)

Contract Value: USD 118 Million

Scope: EPC + Commissioning

- Design & construction of 30,000 BOPD EPF
- 3-phase separators
- Storage tanks (6 x 50,000 bbl)
- Control building & power integration
- Mechanical completion & start-up

■ Crude Oil Export Pipeline – 48" – 65 km

Contract Value: USD 142 Million

- Pipeline engineering & route survey
- Automatic welding & NDT
- Hydrotesting & commissioning
- Valve stations & tie-ins

■ Integrated Gas Gathering & Compression System

Contract Value: USD 96 Million

- Manifold stations •
- Compression skids
- Flare system
- SCADA integration

■ Year Oilfield Operation & Maintenance Contract

Contract Value: USD 210 Million

- Operation of 85 producing wells
- 24/7 field supervision
- Preventive & corrective maintenance
- Production reporting & optimization

■ Central Processing Facility (CPF) Upgrade

Contract Value: USD 74 Million

- Production debottlenecking
- Electrical modernization
- Instrumentation overhaul
- Capacity increase from 45,000 to 70,000 BOPD

■ Produced Water Treatment & Reinjection Plant

Contract Value: USD 63 Million

- 60,000 BPD treatment capacity
- Reinjection pumps
- Chemical dosing system
- Environmental compliance

■ Tank Farm Construction

Contract Value: USD 88 Million

- 6 floating roof tanks
- Firefighting & foam system
- Metering system
- Terminal control room

■ 132/33 KV Oilfield Substation

Contract Value: USD 51 Million

- Power transformers
- Switchgear installation
- Cable trenching
- Field electrification

■ Pipeline Integrity & Rehabilitation Program

Contract Value: USD 39 Million

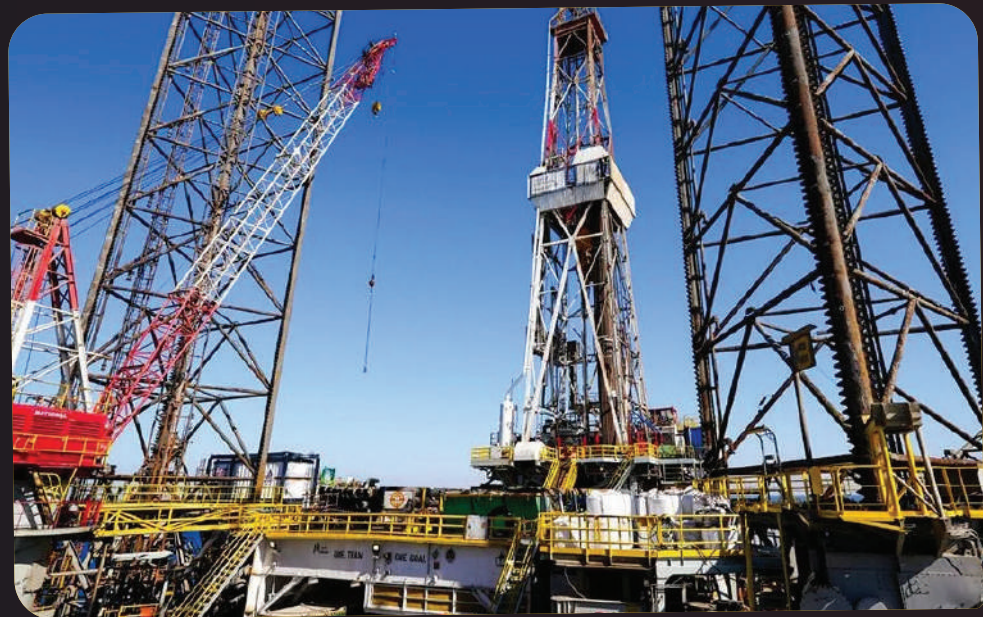

- Smart pigging
- Corrosion repair
- Cathodic protection
- Leak detection systems

■ Field Infrastructure Mega Package

Contract Value: USD 120 Million

- 120 km internal roads
- 600-man camp construction
- Workshops & warehouses
- Security & perimeter systems

■ Artificial Lift Enhancement Project

Contract Value: USD 47 Million

- ESP installations
- Production optimization
- Control systems

■ Flowline Network Expansion – 120 km

Contract Value: USD 85 Million

- Carbon steel & HDPE lines
- Tie-ins to CPF
- Pressure testing

■ Well Testing & Temporary Production Facilities

Contract Value: USD 33 Million

- Surface testing units
- Temporary separation systems
- Production ramp-up support

■ Digital Oilfield & SCADA Deployment

Contract Value: USD 58 Million

- Remote monitoring
- Real-time data control center
- Field automation

■ Integrated Field Management (Operator Support)

Contract Value: USD 165 Million

Scope: Full Asset Management Support

- Production supervision
- Asset integrity management
- Budget & cost control
- HSE compliance
- Production planning & reporting

■ Integrated Oil & Gas Separation and Processing Facility Project

Contract Value: USD 92 Million

Scope: Engineering, Procurement & Construction (EPC)

- Construction of oil, gas, and water separation units
- Installation of pressure vessels and processing units
- Control and automation systems
- Testing, commissioning, and start-up

■ Natural Gas Processing Facilities Development Project

Contract Value: USD 128 Million

- Liquid and acid gas removal units
- Dehydration and sulfur removal systems
- Installation of industrial compressors
- Integration with centralized control systems

■ Gas Transmission Pipeline Network Construction – 36” – 85 km

Contract Value: USD 154 Million

- Surveying and route study works
- Excavation and pipeline laying works
- Welding and non-destructive testing (NDT)
- Testing and commissioning

■ Offshore Crude Oil Export Terminal Construction Project

Contract Value: USD 176 Million

- Offshore export platform
- Offshore transportation pipelines
- Loading and unloading systems
- Safety and protection systems

■ Oilfield Production Facilities Expansion Project

Contract Value: USD 82 Million

- Addition of new production lines
- Upgrading processing facilities
- Modernization of control systems
- Increasing field operating capacity

■ Oil Facilities Fire Protection System Development Project

Contract Value: USD 43 Million

- Firefighting network systems
- Foam and automatic fire suppression systems
- Alarm and early detection systems
- Control rooms and emergency systems

■ Main Oil Pumping Station Construction Project

Contract Value: USD 69 Million

- High-capacity pumps
- Measurement and control systems
- Electrical power systems
- Testing and commissioning works

■ Industrial Chemical Storage Facilities Construction Project

Contract Value: USD 38 Million

- Specialized storage tanks
- Spill containment systems
- Environmental safety systems
- Control and monitoring systems

■ Industrial Control & Automation Systems Network Development Project

Contract Value: USD 57 Million

- Upgrading PLC and SCADA systems
- Integration with centralized monitoring systems
- Enhancement of operational performance
- Integrated control center

■ Oilfield Operations & Control Center Construction Project

Contract Value: USD 72 Million

- Construction of the main control building
- Real-time monitoring and operational systems
- IT infrastructure systems
- Industrial cybersecurity systems

■ Pipeline and Pumping Stations Rehabilitation Project

Contract Value: USD 61 Million

- Replacement of damaged sections
- Cathodic protection systems
- Smart pipeline inspection works
- Safety and operational testing

■ Chemical Injection Systems for Oilfields Project

Contract Value: USD 44 Million

- Injection and treatment units
- Control and monitoring systems
- Injection tanks and pumps
- Production performance optimization

■ Industrial Water Facilities Development Project for Oilfields

Contract Value: USD 66 Million

- Industrial water treatment plants
- Pumping and distribution systems
- Filtration and treatment units
- Compliance with environmental standards

■ Oilfield Services Industrial Complex Construction Project

Contract Value: USD 114 Million

- Industrial maintenance workshops
- Warehouses and logistics centers
- Operations and administrative buildings
- Utilities and infrastructure networks
